

The Mt. Tamalpais Interpretive Association is a volunteer organization whose purpose is to promote the conservation, education and interpretation of the State Park system, primarily at Mt. Tamalpais State Park. We do this in various ways which include:

- Volunteering at the Visitor Center on East Peak or at the Astronomy Programs
- Sponsoring interpretive hikes for the public
- Sale or free distribution of interpretive and educational materials
- Aiding the State of California in conserving and interpreting the areas of the State Park system
- Fundraising to support these activities

Most of all, we are a group of individuals whose interest, ages and backgrounds vary greatly but are linked together by a love of Mt. Tamalpais.

Though the benefits of contributing to the Mt. Tamalpais Interpretive Association are endless, they include:

- Satisfaction in helping visitors learn about and preserve a beautiful resource
- Involvement with a group of wonderful people with similar goals and ideals
- Enriching activities such as weekly hikes and special educational walks
- Educational programs and training
- Discounts on most items we sell
- Voting privileges in the association
- A quarterly newsletter, The Mountain Log

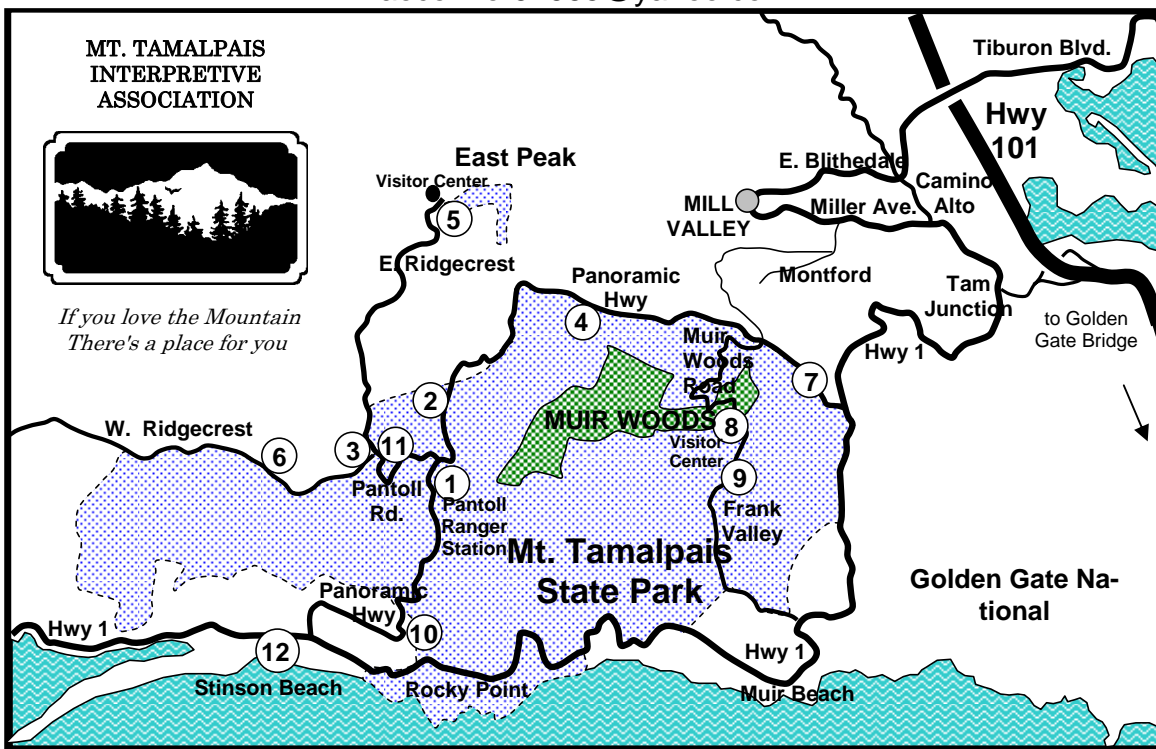

Please join us. Just fill out the application below, include your check and mail both to the address noted
